PASSED PENSION BILLS.

(A. P. NIGHT REPORT.)

WASHINGTON, May 30.—Mr. Delsell looked about him, but not one accepted his ofter, though a dozen members were on their fact. Whersupon Mr. Dalsell himself withdrew the special order and the Speaker, under the operation of the rule displayed yesterday by conference reports, directed the clerk to report the first of the 190 pension bills, the passage of which Ma. Tribert blocked last Friday with the point of no quorum.

"A Parliamentary inquiry." shouted "Mr. Brown of Ohio. several times. "Will it be in order now to move to adjourn." "Certainly, certainly," came from the Democratic side.

"The chair paused, and several members crowded about Mr. Brown and cyte denty discussed him from making the motion, for he took his seat.

The regular order was demanded. Mr. Richardson raised a question as to whether the regular order would not be the Chinese Commission Bill, which was considered several weeks ago, and again whether a motion to strike out the enacting clause was pending when the House adjourned. The Speaker of olded that the Commission Bill and not the pension bills was first in order. Thereupon Mr. Dahsell asked unarkmous consent that sotion upon the Commission Bill would be postpuned. "As this is Decoration day," said the House do now adjourn."

The motion was lost by 197 to 120—a rising vote which was not on party lines. A motion to strike out the snacing clause of the Chinese Commission Bill was lost, by 105 to 130, and the bill went back to the calendar.

Mr. Dahsell then gave notice that as soon as the pension bills were dispossed of he would again present the special order for the consideration of the arittrust resolution and the bill.

After the first pension bill had been read by title and had advanced to the third reading stage Mr. Talbert demanded the reading of the engressed bill. A moment later Mr. Talbert again rose and through. The Speaker decided that any member had the right to demand the reading of the unsprossed bill. A moment later Mr. Talbert again rose and the fact that members were greatly interested in these belters from the gentleman from South Carolina." This aroused Mr. Talbert's ire.

TRIBUTES TO NATION'S DEAD.

LA P. DAY REPORT:

WASHINGTON, May 20.—Business was suspended in the national capital today, while thousands of citisens, veterans of three wars, and their descendants, paid tribute to the nation's heroic dead. In the eight cemeteries around the city the services were held, and orations were delivered by some of the most able orators, whose duties call them each session to the national capital. Upon the graves loving hands placed memorial weaths, and "tape" floated from a score of bugies as the nation paid its tribute to the heroism of the departed.

As usual, the chief ceremonies were at Arlington. Veterans of the civil war, the Mexican war and the war with Spain and the district militia participated in the procession, which marched through the heart of Washington, led by the Marine Band. The march to harlington promptly at noon, when the national salute was fired by a battery on the adjoining height. The orators and invited guests assembled in the "Temple of Fame." Here the Marine Band played a dirge, while the members of the various organizations buried the pedestal of the monument in the wreaths and chaplets of flowers. The procession then moved along the main road, through the cemetery, and dispersed long enough to scatter flowers upon thousands of the marked graves.

The ceremony of decoration finished, the procession reassembled at the am-hitheater, when the bugier sounded the assembly and the oratorical feature upon thousands of the marked graves.

It was agreed that the Democratic National Committee, the Association of Democratic Clubs and the Democratic Congressional Committee should work in harmony.

At the close of the conference, President Hearst issued the following:

"To the Democratic clubs and societies of the United States point to the approaching anniversary of the birthday of the nation as a day that should be celebrated with special fervor this year. The Ministers maintained a firm attitude, and today they were informed by the Teung Li Yamen that it would be impossible to bring up the guards until the Tsung Li Yamen had communicated with the Viceroy of Pe Chi Li. As this was regarded as an obvious subterfuge in the interest of delay, the Ministers replied that if proper facilities were not granted now, the fifteen foreign warships at Taku would land a sufficient force to come to Peking without the consent of the Chinese government, and they called upon the Tsung Li Yamen to give a definite answer at or before 6 a.m. Thursday. LONDON, May H.—The Daily Mall has received the following from Tien.

EXCUSE FOR THE MOVEMENT.

(A. P. NIGHT REPORT.)

WASHINGTON, May 20.—The supposition here is that the edict referred to was issued as a result of the pressure of the foreign legations in Peking. That the document is couched in equivocal terms is not surprising to officials
here who are acquainted with conditions in China.

The Empress belongs to what is
known as the "reactionary party" in
Chinese politics, and the Emperor, being under her influence, it is not surprising that the edict is as stated, more
of an excuse for the movement than a

The party rescued at Chang Sin Tien defended themselves from a house, and fired on the "Borzess" killing exeversi. When the troops of the relieving party arrived, the house was abandoned, and the soldiers looted and burned it. Two men and one woman are unaccounted for. It is feared they are in the hands of the "Borzess."

PROTEST AGAINST REGULATION OF EXERCISE OF PROFESSIONS.

CITY OF MEXICO. May 20.—There is a strong protest being made against the provisions of a bill for the regulation of the exercise of the learned professions, engineering, architecture, etc., here. The bill was presented in the Chamber of Deputies by Señor Carrido, and aims to restrict the practice of any profession by men or women who do not possess diplomas from the Mexican schools. As the examinations would have to be passed in Spanish, frequently before boards of professional men dreading the rivalry of foreigners, there is a loud outcry against it.

Senator Jones, chairman of the Democratic National Committee; Representative Richardson, Democratic leader in the House, and chairman of the Congressional Committee; Judge Chauncey F. In the afternoon the exercises attracted a greater number than could be provided for. Standing room in vestibule and open doorways was at a premium. The order consisted of music by home band, prayer by Rev. Dr. F. H. Beck, "memorial of flowers to the unknown dead," conducted by Mrs. H. J. Hough, assisted by forty-five young ladies representing States of the Union. Each young lady as she deposited her burden of flowers on a monument, which had been erected upon the stage, recited a verse suited to the occasion.

Auditorium and stage were profusely decorated with flowers. Daughters of the various organizations, Edith Upham, Anna Farnsworth, little Fay Bainter, Lillian Ashman and Grace McGarvey, each recited her verse and laid upon the tomb a spray of cypress. An original poem by Commander F. M. Clarke was well received. The orator of the day, Judge H. C. Gooding, was then introduced. Mrs. H. D. Kraus of Los Angeles gave a vocal solo, "Break the News to Mother," and received a recall. Lincoln's Gettysburg address, recited by Emmons Spencer, caught the sympathy of the veterana. Newman Club Discusses the Late Doctor's Action.

Paper Read by Rev. Joseph Barron

The regular monthly meeting of the Newman Club of this city was held last evening at Illich's restaurant, with a dinner, as is the custom of the club. With that meeting the club began a new fiscal year, and officers were elected as follows: President John F. Francis; secretary, Joseph Scott; treasurer, John J. Fay, Jr.; directors, Hon. Stephen M. White, L. A. Grant, James C. Kaya, H. C. Dilion, R. F. Dei Valle, Isadore B. Dockweller, Zach Montgomery.

roting of those who officially interpret its fundamental dogmas. But what he seemed to wish was to remain a Catholic, and at the same time to promulgate views which were antagonistic to true Catholicism. Purthermore, when he eaw that this was impossible, instead of withdrawing from the church in a quiet, self-respecting way, he felt bound to make an absurd fuss about the matter, and to do a little public posing as a modern Galileo. What interests us in the correspondence with Cardinal Vaughan is the perfect way in which the letters of the two men reflect and reveal their personalities. Those of the cardinal are so urbane, so genial, so courteous in word and phrase, and so full of personal kindness and consideration as to be among the most charming we have ever read. On the other hand, Mivart's replies were bumptuous, pragmatical and aggressive to the very verge of actual discourtesy, and in this way, they form an effective contrast and a foll to the cardinal's reply. The whole correspondence is worthy to be preserved and read as illustrating the difference in tone and temper between a cultivated and polished gentleman and a pugnacious pedant."

At the conculsion of Rev. Barron's paper, short addresses were delivered by Very Rev. P. Barnett of this city, and Rev. P. Laubacher of El Rio. A letter strongly commending the club and its efforts was received from Bishop Montgomery, who is now in St. Louis.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, May 30. — The transport Meade, with Maj.-Gen. E. S. Otts aboard, arrived tonight, twenty-five days from Manila. The Meade had three cases of smallpox aboard. She was placed in quarantine, where she will remain an indefinite time. Gen. Otts stated to the quarantine officials that he was in excellent health, and wished to land to take a train for the East as soon as possible. A quarter-master, a stowaway and a soldier are infected with the smallpox.

The Meade has on board the bodies of 112 soldiers, who died in the Philippines. There was one death on the way over. The transport's passenger list numbers forty-nine cabin and 114 steerage passengers. The presence of smallpox on the vessel makes the time of Gen. Otte's landing very indefinite. The smallpox first manifested its appearance when the Meade came into port, a salute of thirteen guns was fired in honor of Gen. Otts.

BERLIN, May 30.—[By Atlantic Cable.] There is considerable press comment upon the bill introduced Monday in the United States House of Representatives by Mr. Bailey of Kansas, desiring the President to impose and collect an additional duty of 19 per cent. on all imports from Germany in the event of the enactment of the Meat Inspection Bill in its present form. The government, however, does not yet attach special importance to Mr. Bailey's proposition, believing that nothing will come of it.

A Foreign Office official, who was interrogated today regarding the matter defined the attitude of the German government as above set forth, but declined to discuss the bearing of Mr. Bailey's action upon the Meat Inspection Bill.

UNCLE SAM HAS PACILITIES FOR MAKING WARSHIPS.

WASHINGTON, May 30.—Ahmed Pasha, the Turkish vice-admiral now in this country, has returned to Wash-ington from a visit to Cramps' ship-yards at Philadelphia. The admiral has been making flying visits to the varidus naval equipment works in this past of the country. He expresses himself as greatly impressed by the facilities in this country for building and fitting out war vessels, and says that in this respect the United States has no superior in the world, if, indeed, it has an equal.

Although no order for a cruiser to be constructed in this country for the Turkish government actually has been issued, it is very probable that one will be in a short time. The admiral reiterated his former statement that there is absolutely no diplomatic significance in his mission to the United States.

L. H. Bricker, connected with the postal department at San Francisco, will have charge of the inspector's department of this division while Inspector M. H. Flint is away in the Hawaiian Islands. Southern California. Arizona and New Mexico are embraced in this division. Mr. Bricker is now in the city.

NATURAL BRIDGE.

In the northern part of the Tonto Basin is the famous Natural Bridge of Pine Creek. It has a giant arch of magnesian rock, with a flying span more beautiful than ever was carved by the hand of man, 300 feet long, 500 feet in width and rising above the stream at its base fully 175 feet. Below, the bridge seems as though sustained not by one, but by two arches that spread their massive curves across each extremity of the vast cavern, the west line of each resting on the same vast pillar, for the passage is in the shape of a crescent. The side of the narrow, subordinate cafon, in which the bridge lies, is perforated for its entire height with holes which lead into caves, some of them of immense size. The caves are chiefly remarkable for the vast quantity and variety of petrifactions contained in them. Neatly executed in stone are found twigs, leaves, moss and various other substances, originally vegetable in nature, now, stone through the constent dripping from above of water supplied by two great springs that well from the ground near the house of the owner. capture the Transvasi capital within a day or two with a sudden and unexpected move.

Public interest centers largely in President Kruger, his capture or escape. The occupation of Pretoria would be largely robbed of its value in the estimation of the British if Com Paul were still at large and able to keep alive the dying embers of war.

A Pretoria dispatch says the situation at Johannesburg shows, as reported by Lord Roberts, that order is maintained in the gold reef city.

The report that the British were driven back evidently refers to the prolonged fight of Gen. French westward of Johannesburg. But apparently the British were not seriously checked, as Lord Roberts does not mention it in his dispatch twenty-four hours later.

A dispatch from Mafeking, dated Friday, May 25, reports that Gen. Snyman, the Boer commander, has left his force and arrived at his farm with a shrapnel bullet in his foot.

The Boer laager at Rooigraad, it is announced, has retired further into the Transvaal, and Mafeking is rapidly resuming its normal state. Maj. Gen. Baden-Powell, on the Oueen's hirthday, gave a dinner to the officers of the reilif column. During the course of a speech proposing the Gueen's health, the defender of Mafeking remarked that he was so elated by the recent occurrences that he felt that he could "drink the health of Paul Kruger himself, coupled with that of Cecil Rhodes." adding "because Kruger has been the cause of the present great outburst of imperial feeling and Rhodes was the red rag to the bull which drew him on."

But no one yet has sung about

The city should be held liable for all losses suffered by persons not actively engaged in riching, as a consequence of the violence which has already resulted in the loss of several lives, the maining of a large number of persons, and the destruction of a considerable smount of property: The case of Pittsburgh is apropos here. For its devalute in property by a mob of strikers, that ity was compelled to pay damages aggregating \$2,000,000 or thereabouts. The lawlessness which has prevalled in \$1. This scheme is raw and coarse and mischievous, and ought to be defeated. It is no excuse that the bad practice has been resorted to heretofore. This lay rather, a good reason for the abandonment of the custom; for on other co-casions the trips to the national convention in the convention city is a distinct evil, which encourages and invites the attendance of hangers—on, dissolute characters, political beggars and "touts," and militates against the dignity and self-respect of the delegates themselves. THE TROUBLE IN CHINA.

Times has referred to reparating an actual or pending surplus of fuel oil in California. There seems to have been of late something like a campaign—a quiet, but persistent campaign—on the part of some of the big oil consumers to create the impression that there is, or soon will be an overproduction for the purpose of bearing the price of the product which they purchase. Some of these consumers remember when oil was selling in Los Angeles the idea of paying three times that price. However, we much fear that they will have to continue to do so, if they do not even have to pay more.

As The Times has shown, on several consistent of late, there is little fear of the coverproduction of fuel oil in California in the near future, if ever. It is a glut of a powerful service on the commercial what contents to make a glut of a powerful service what contents the make a glut of a powerful service when the commercial the contents of the coverproduction of fuel oil in California the cove

It is not surprising to learn that the attempt to blow up the Welland Canal was conceived and carried out under the auspices of the Clan-na-Gael. That proscriptive order has been guilty of even worse crimes in the past.

The speaker said that the struggle in South Africa was on; that they were righting for the same principles, and that sorrow was now their portion, but in after years a shaft would be erected typifying the struggle, and on each anniversary, with similar rejoicing, would the day be observed.

Of these twenty voung soldiers who died at San Francisco, only two were from Los Angeles. The boys from the city, accustomed to a sedentary life and to irregular hours, seemed to hear the rigers of camp life better than those from the country, whose lives had been more avenly ordered. When the regiment refurned in November of the same veer it was suggested by the officers of the resiment that a monimer he everial to the memory of the natriots who had seemed the later and a committee was appointed, of which J. THE LESSON OF HISTORY.

"History teaches us that however great and powerful an emptre or a republic may become through the wisdom and valor of its citizens, that power may crumble through the carelessness, or tyranny or corruption of the rulers or of the people themselves.

"Before our eyes and in our times, the splendid, haughty empire of Spain, whose soldiers challenged the bravest of earth's heroes; whose ships sought the most distant islands of the sea, has fallen to pieces; its glory has departed, and the grandest republic the world has ever known has been built up in part upon the ruins of that once-powerful State. All, save a part of the Iberian Peninsula, have been wrested from Spain's cruel and savage grasp.

"Henceforth she may draw her sword, but nations will tremble not! She may unleash her dogs of war, the world will fear not, heed not their barking. Her power is gone, forever gone. America struck the blow that broke the chains binding the last of her vassals.

"Why has she thus fallen? Whittler wrote:
"When honor is dead when hope is THE LESSON OF HISTORY.

"When honor is dead when hope is gone,
The man is dead.'
And this truth applies to nations—
"When honor is dead, when hope is gone,
The nation is dead.'
"Honor died in old Spain. Hope, that with hope which lies at the foundation of all human progress, was gone, and the nation was dead. She ruled distant provinces with the blood-stained knife, and forced from unhappy, unwilling, discontented subjects taxes with which to enrich their despoilers. In keeping with the fame of Los Angeles as a city of beautiful homes and parks, it—can also lay claim to having within its borders one of the most beautiful and well-kept cometeries in the United States. Everagreen Cemetery was a subject of edmiring comment yesterday, among the myrind of people assembled in the soldier dead. The well-kept graves, flowers and lawra, the even, cleanly walks and drives throughout the entire enclosure elicited the praise of all and the courteous employés seemed to vie with each other in providing everything convenient for the organisation which temporarily took possession and held their appropriate services therein. There is not within the entire enclosure what might be called a neglected grave, so efficient is the service rendered by those in charge of the cemetery. Its location and eminence have often been favorably remarked upon, and the care which appears to have been taken to plant the trees. However and shrubs just in the right places has also been favorably spoken of. Verlly, "Evergreen" is an ideal city of the dead.—Adv.

MAY WINS THE TOURNAMENT.

Almost every golfer of the Los Angeles Country Club not retired from the active list turned out yesterday to chase the gutta percha over the green. All day long the green presented a most active scene as player after player went the rounds of bunker and hole. The clubhouse, too, was the scene of much gayety, for society turned out in full force to do honor to the knights and laddes of the "driver" and "brassie." The greens had been put in spiendid condition for the matches, and in the early matches little or no wind interfered with the play.

There were two events yesterday—a woman's handicap and a similar tournament for men. In the latter, thirtysix holes, medal play, firty golfers were entered and forty-five took part in the tournament.
